

Future Fibre Technologies recognises its moral and legal responsibility to provide a safe and healthy work environment for employees, contractors, customers and visitors.

To meet this responsibility, Future Fibre Technologies is committed to the following:

- Develop, implement and continuously improve the effectiveness of our health & safety management system
- Monitor and ensure compliance with applicable legislative requirements and industry standards.
- Continually improve our health & safety performance by establishing measurable objectives and targets aimed at preventing workplace related injury and illness
- Actively identify, risk assess and control workplace hazards
- Ensure adequate resources are provided to enable employees and contractors to undertake their duties in a safe manner, including information, systems of work, equipment and facilities.
- Provide adequate training, instruction, support and supervision to employees, contractors and customers to ensure their safety
- Consult with employees and contractors regarding workplace hazards, controls and change that may affect their health and safety

Management is responsible for:

- The provision and maintenance of a safe workplace
- Involvement in the development, promotion and implementation of health and safety policies and procedures
- Training employees to perform their assigned tasks in a safe manner
- Provision of resources to meet health and safety commitments

Employees are to:

- Follow all health and safety policies, procedures and instructions
- Report all known or observed hazards to management

This policy is applicable to Future Fibre Technologies in all its operations and functions including those situations where employees are required to work off site.
