

# FFT TRAINING SCHEDULE | REGISTRATION IS NOW OPEN

## FFT CERTIFICATION TRAINING

Get current on your FFT certification! Register now for the Re-Certification Training course which covers everything from the conceptual design of FFT systems to hands-on configuration and installation of software and hardware components. Topics include: product overview, system design, cable installation, system commissioning, maintenance and troubleshooting. Attendees will be certified to design and provide technical support on the specified FFT products upon course completion.

### FFT RE-CERTIFICATION TRAINING

A comprehensive two and a half day re-certification training course focused on key aspects of Secure Fence™ and Secure Point™ fiber optic sensing systems. \* This class is suited for those previously certified or have experience with FFT Systems.

#### October 11 – 13, 2016

10/11/16 12:00 am to 4:30 pm

10/12/16 8:30 am to 4:30 pm

10/13/16 8:30 am to 4:30 pm

**Course Fee USD \$650/person**

### WHO SHOULD ATTEND

Ideal for installers, design engineers, and security consultants.

### IMPORTANT INFO

- Participants are required to bring a laptop to participate in the programming workshops.
